### TREX - THE WORLD'S #1 DECKING BRAND

#### THE INVENTOR OF COMPOSITE DECKING

Wood alternative composite decking from Trex offers a variety of finishes, enduring beauty, and low maintenance in a decking product made of 95% recycled materials.

Trex also offers a full line of deck framing products, drainage systems, deck railing and lighting, and hidden fastening systems.

### TimberTech/AZEK

#### CAPPED POLYMER DECKING

#### UNRIVALED DESIGN AND PERFORMANCE

Bring stylish sophistication and premium performance to your outdoor living space.

The look and feeling of traditional wood, with added strength and durability of a composite material.

Ask about TimberTech's high-performance metal and composite deck railing systems. Find the right finishing touch for your decking project. With profiles ranging from classic to contemporary. Give your decking masterpiece the frame it deserves.

### FORTRESS DECKING

#### AN ATTRACTIVE AND LOW-MAINTENANCE

#### ALTERNATIVE DECKING PRODUCT

Fortress decking is built using a revolutionary co-extruded composite technology process. It's not only stunningly realistic but also holds up to harsh climates.

Fortress uses a unique combination of bamboo and recycled plastics.

Environmentally friendly and free of the toxic chemicals and preservatives typically used to treat natural wood.

Check out the full range of Fortress Railing Product, each of which can be customized to your needs.
