

Ask about the **HUNDEGGER** system - unrivalled accuracy

EMP
ENGINEERED
WOOD PRODUCTS

**Trus Joist® Parallam®
Parallel Strand Lumber (PSL)**

- Allows long spans for open floor plans without intermediate posts or columns
- Has warm, unique grain that is perfect for applications with exposed beams
- Provides ideal solutions for cantilever and multi-span applications
- Solid sections save time on site assembly

**Trus Joist®
TJI®**

Joists are a key part of making a high-performance floor. The dimensional stability of TJI joists help them resist warping, twisting and shrinking that can lead to squeaky floors. TJI joists are lightweight and come in long lengths, which makes them faster and easier to install than traditional framing, and saving you both time and money.

**EDGE GOLD™ ENHANCED
FLOOR PANELS**

The built in Down Pore Drainage System ensures that water properly drains, protecting against edge swell damage.

Each sheet comes with a Fastener Grid that ships face up, ready for easy and accurate installation right off the truck.

**Strong-Wall®
Shearwalls**

A high-strength pre-fabricated engineered wood panel that helps structures resist forces resulting from high wind and earthquakes.

Hundegger TURBO-Drive

High-performance cutting for all areas of woodworking

TURBO-Drive is the right answer when faster and more flexible cutting is required. In addition, the machine can carry out drilling and milling work and markings of all kinds. The heart of the machine is the flexible saw unit which can make cuts at any angle and inclination.

For unrivalled accuracy on your next joist or beam project, **Hundegger TURBO-Drive** is now up and running at our Port Kells location.
