

EMPLOYMENT OPPORTUNITY

POSITION: ENGINEERED WOOD PRODUCT DESIGNER (Full Time Position with Benefits)		POSTING NO : November 5, 2021
DEPARTMENT:	Engineered Wood Products	
REPORTS TO:	Engineered Wood Products Manager	
WORK LOCATION:	Dick's Lumber	

Dick's Lumber is an industry leader in the building supply business that enjoys year over year growth. We are proudly Canadian, and our stability has allowed us to stay in business for over 50 years!

We are proud to offer our employees a safe and rewarding place to work along with excellent benefits, compensation plans and industry leading RRSP programs. We are an employer who believes in giving back to our employees as well as to the various communities where we operate. In addition, we don't merely offer our employees a job, but rather a career path as there are many rewarding opportunities for our staff to take advantage of and grow with us.

We are currently seeking an experienced, professional and detail-oriented person to join our Dick's Lumber Team as an **Engineered Wood Product Designer** for our Surrey or Burnaby locations.

ACCOUNTABILITIES:

- Coordinates EWP components with regards to receiving the plans, quoting, and designing EWP systems.
- Designs packages for all EWP applications ranging from single residences to multi-family complexes.
- Prepares shop drawings for products and provides technical assistance to customers and to the Sales department.
- Consults and works with architects, city building officials, engineers and contractors to ensure that projects are completed correctly and on time.
- Handles customer complaints in a positive and constructive manner with a focus on customer service.
- Makes site visits when required to deal with on site issues.
- Performs other job-related duties as required.

QUALIFICATIONS:

- A diploma from a two (2) year technical program at a technical college such as BCIT is an asset.
- Experience with engineered wood products and the different product mixes.
- Functional computer and math skills
- The ability to read and interpret blueprints and structural working drawings.
- Fluent in English (spoken and written) with excellent listening, communication and interpersonal skills.
- Detail oriented with strong organizational skills.
- Professional, courteous and punctual with a focus on customer service.
- Must have a positive attitude and be a team player.
- Basic understanding of the building code and construction market.
- Experience with AutoCad and/or Javelin is an asset.

We thank all those who apply however only those applicants chosen for an interview will be contacted.
